**Washington, DC 20515**

January 14, 2014

President Barack Obama  
The White House  
1600 Pennsylvania Avenue, NW  
Washington, DC 20500

Dear President Obama,

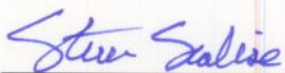

On December 10, 2013, we sent you a letter regarding the Republican Study Committee's health care proposal – H.R. 3121, The American Health Care Reform Act – as well as a request to meet to discuss the future of health care in our country. Unfortunately, over one month later, we have yet to receive a response.

In your December 3, 2013, speech you stated, "If you've got good ideas, bring them to me. . . . [If] you still think this law is a bad idea then you've got to tell us specifically what you'd do differently to cut costs, cover more people, make insurance more secure." Mr. President, that is exactly what we have done.

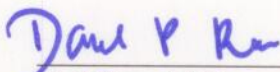

Since we last wrote you, problems with the Affordable Care Act (ACA) continue to surface and have forced your administration to grant hardship exemptions to some of the millions of families who have had their health care plans canceled and who are now experiencing difficulties finding affordable alternatives. While problems with the ACA continue to grow, so have the number of cosponsors of our bill. The American Health Care Reform Act currently has 121 cosponsors, and we expect that number to keep growing as the broken promises and unworkable mandates from the ACA continue harming American families and businesses.

Please join us to discuss a better way forward. We look forward to your response and if any of us or our staffs can be of any assistance in facilitating this meeting, please contact us at [\(202\) 225-3015](tel:202-225-3015).

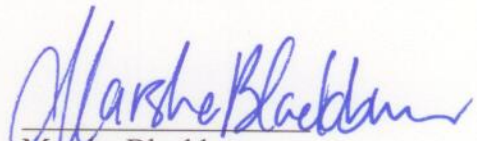

Sincerely,

Steve Scalise  
Member of Congress

Phil Roe, M.D.  
Member of Congress

Marsha Blackburn  
Member of Congress
